

DressYourWay owner Danit A. Levi and PINK DVD co-ordinator Julie McRobbie present the first copies of the journey to the Lord and Lady Provost of Aberdeen. Businessmen and women from across the North-east have attended a lunch on September 29th featuring an inspirational DVD aimed at providing support guidance and information for people diagnosed with breast cancer.

What started as a fundraising fashion show in September 2004 to celebrate PINK (people in need of kindness), a local breast cancer support group, has now materialized into reality with this DVD. Our aim was to explore the services, practical advice, friendship and broad scope of encouragement that PINK, CLAN and it's partnering agencies around Scotland can give to women and men.

Entitled, The Journey, the DVD features Aberdeen's Lord Provost John Reynolds. The Lady Provost, Helen Reynolds, is a long time supporter of the PINK group and Patron of CLAN, having successfully undergone treatment to combat breast cancer herself. Copies of the DVD are available from [Clan House](#) 01224 647000.
